

# Rent Payment Credit Reporting

Why Every Property Owner Should Use It

**Why?** Because doing so brings a long list of unique benefits to both you and your renter.

Adopting a resident credit reporting solution can:

**Retain High Quality Renters**

**Reduce Payment Delinquency & Post-move Out Collections**

**Raise Your Per-unit Revenue**

For all these reasons and more, rental property owners and managers across the country are increasingly using a credit reporting solution to report rent payments to the credit bureaus (Equifax, TransUnion and Experian). Best of all, resident credit reporting works for rental properties of all sizes. And with a turnkey solution like CredHub, you only spend around 15 minutes a month to manage it.

**Learn more about how CredHub can help you improve your rental experience.**

**CredHub's clients see an average of 50% reduction in delinquency once fully implemented.**
